Chinese Patent Granted

214
PCT Applications

157
Other Technology Awards

82
Foreign Patent Applications published

2456
Industry Funded Projects

52
Foreign Patent Granted

About SIGS

Launched in March of 2019, Tsinghua SIGS is a research and graduate education institution of Tsinghua University located in southern China. Building upon Tsinghua's academic legacy and Shenzhen's innovative resources, our students and faculty are dedicated to tackling global challenges through cutting-edge research and collaboration.

International:

By diversifying faculty and student bodies, engaging in high-level collaboration with overseas partners, and internationalizing campus resources, Tsinghua SIGS cultivates students' global competencies and nurture them as future global leaders.

Entrepreneurial:

By exploring innovative forms of pedagogy and restructuring its academic governance and administrative systems, Tsinghua SIGS reshapes graduate education to meet rapidly changing industry needs.

Borderless:

By transcending boundaries between academic disciplines, industry and the surrounding community, Tsinghua SIGS openly shares resources and expertise to develop interdisciplinary solutions for global challenges beyond its physical location.

The Program *

Throughout a 2-week program, we provide

-  Lectures delivered by acclaimed Tsinghua faculty
-  Opportunities for group discussions and projects
-  Site visits to innovative labs in SIGS and leading enterprises located in Shenzhen
-  Field trip and cultural activity to explore the history and beauty of China

About Global Summer School

In order to adapt to a globalized commercial environment, Tsinghua SIGS encourages interdisciplinary research and learning, integrating among different theme areas across traditional academic borders.

This summer school offers students an opportunity to gain a systematic understanding of academics at Tsinghua SIGS, showing how interdisciplinary learning breaks barriers and how integration creates innovation. As part of the program, students can choose among seven areas to explore.

Institute of Future Human Habitats (IFHH)

Institute of Biopharmaceutical and Health Engineering (iBHE)

Institute of Data and Information (IDI)

Institute of Materials Research (IMR)

Institute for Ocean Engineering (IOE)

Institute of Environment and Ecology (IEE)

Open Faculty for Innovation, Education, Science, Technology and Art (Open FIESTA)

Application

Eligibility:

Applicants must be non-Chinese citizens with a valid passport.

Deadline:

1st round for international students who are outside of Chinese Mainland: May 6, 2024

2nd round for international students who are currently in Chinese Mainland: May 20, 2024
